This checklist contains all the species of birds that have been verified by specimen, photograph, or audio recording in New Mexico and have been accepted as valid by the New Mexico Bird Records Committee. Nomenclature, taxonomy, sequence, and spelling follow the seventh edition of the American Ornithologists' Union's *Check-list of North American Birds* (1998) as amended through its 56th Supplement (*Auk* 132:748-764, 2015). Through 31 July 2015, 542 species representing 67 families have been verified in New Mexico, including five established non-native species (identified as “Introduced”) and three species now extirpated (identified as “Extirpated”).
